DESALTING OF OILS CONTAINING CRYSTALLINE
SALTS. [1961] 5p. 8 refs.
Order from OTS or SLA \$1.10 . 61-20163

Trans. of Neftyanoe Khozysstvo (USSR) 1946 [v. 24]
no. 2, p. 39-43.

DESCRIPTORS: *Oils, Desalination, *Salts, Sepa-
ration, Dehydration, Petroleum.

Crystalline salt contained in Emba oils as received by
refineries cannot be removed by any conventional
electrical method. A laboratory study was performed
of the conditions of formation of crystalline salts in
crude oils, which originally contain only salt solutions,
and this established that the crystalline salt is present
in oils supplied to refineries, most likely as a result
of prolonged settling after insufficiently effective
(Engineering--Chemical, TT, v. 6, no. 12) (over)

DESCRIPTORS: *Bibliography, *Magnetohydrodynamics,
Plasma physics.

This bibliography covers Russian literature in the field of magnetohydrodynamics from 1958 to 1962. A few references, somewhat less recent, were included because of their importance. Some of the main sources searched included (1) International Aerospace Abstracts (2) Monthly Index to Russian Accessions (3) Engineering Index (4) Technical Translations (5) NASA Announcements and (6) Monthly Catalogue of U. S. Government Publications. References are arranged alphabetically by author, and each author's work is listed chronologically. (Physics--Theoretical, TT, v. 9, no. 5) (over)
